

INTERIM MANAGEMENT & OPERATIVE PROJECT MANAGEMENT

With many years of management experience in finance and accounting, I offer fast and pragmatic support in bridging of vacancies on the first and second management level.

Innovative and solution-oriented, I help to successfully and sustainably implement commercial and IT-related projects in your company.

FOCUS

My particular strength is to quickly deal with difficult project situations and shortages in finance management. With an open and transparent communication, I motivate employees and stakeholders to actively participate in the solution process even under difficult environmental conditions. In-depth specialized expertise alone is often not enough to successfully implement the best steps for restructuring with sometimes necessary cuts.

- **Vacancy bridging**
Commercial overall responsibility, CFO, Head of Finance & Accounting, Head of Controlling, Head of SSC
- **Expert in finance and accounting**
Accounting according to HGB / IFRS, Taxation, Consolidation, Controlling, Budgeting & FC
- **Process optimization in commercial areas**
